BENSON'S WATCHES AND CLOCKS. Watch and Clock Maker by Special Appointment, to HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clocks and Watches in the Exhibition, 1862. "As a sample of English clock-work on a large

scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully-adjusted mechanism."-Times, June 11, 1862. "A triumph of ingenuity." Telegraph, March 31, "A more splendid and exquisitely-finished piece of mechanism we have never seen, "--Stundard. June 17, 1862. "Some of them are of great beauty; and if the

English watch-trade only follow up with the same

spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."-Times, June "Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspec-

The interior situation of Austria and Prussia is now very peculiar. The Lower Chamber of the Reichsrath has just disclaimed all responsibilit for the consequences that may flow from the policy of the Government in Denmark, and refused moneys to the full amount demanded. The Prussian Chamber of Deputies has not only censured the policy of the Government in regard to Denmark, but in regard to nearly everything else. The disapproval of the foreign policy of M. Dz BISMASK and Count RECHBERG arises from the fact that, in the opinion of the Parliamentary bodies, each Minister bas betraved Germany, by refusing absolute obedience to the Frankfort Diet The house contains Drawing and Dining rooms, and by not carrying out a sufficietly insolent and aggressive policy towards Denmark! Under these circumstances M. DE BISMARK has made short work of the Prussian Chamber. He To be let a very good three-stalled Stable with has sent it about its business. He had already taunted and threatened the House in his own sar-Possession can be had on the 1st of April 1864. | castic fashion. Sovereignty in Prussia had been placed on a Rock of Bronze-M. DE BISMARK peradventure ?- and all the votes and resolutions of the Chamber and its National Verein would not, shake the ruling power from that foundation. Yesterday Mr. DE BISMARK dismissed the Chamher, after scolding the deputies in a speech from the throne. They had done notling expected from them. They had stood on the very same ground-sudaciously claiming the power of the 11WO NEW Houses, just finished, with Three- purse-which led to the dissolution of the prestories and Six Rooms each, having a good | ceding Chamber. They had wilfully and wantonly Polymetrical Table of Distance from London view of the harbour, in Hollywood Road between rejected Government measures, struck out items Aberdeen and Elgin Streets.
